SUMMARY

Frontend engineer with 4+ years of experience in software and systems engineering. Specializes in React.js and TypeScript. Keen on writing readable and maintainable code.

EXPERIENCE

Frontend Engineer — MetaOptima Technology Inc.

Vancouver, BC June 2020 - Current

- Developed new features and intuitive UIs for dermatology software using React.js, Redux, TypeScript, and Emotion
- Refactored and separated existing code to modern React components using React hooks, TypeScript, and Jest
- Maintained and added new templates for a PDF rendering microservice made in Node.js
- Conducted biweekly agile scrums as a team member of 7-9 people using Jira

Software Engineer — iData Research Inc.

Burnaby, BC Sep 2019 - June 2020

- Replaced and designed in-house analytics software using React.js, TypeScript, and Styled components
- Developed and maintained a market report subscription website using React.js, Redux, JavaScript, and Sass
- Worked closely with the marketing team, developed a medical blog and a landing page using Bootstrap, and WordPress

Software Engineer — Tribeck Inc. (bizocean Co., Ltd.)

Tokyo, Japan, Sep 2017 - Sep 2018

- Developed entire front end, service architecture, and a backend API server for an advertisement trading system and a document creation web service using Vue.js, Python, and Django
- Constructed a cloud infrastructure environment using Google Cloud Platform and Docker
- Analyzed and managed a document creation web service for marketing, SEO, and traffic growth

Systems Engineer — Mizuho Research & Technologies

Tokyo, Japan, Apr 2016 - Aug 2017

- Tested the banking system
- Managed progress and operated the banking network system
