SUMMARY

Frontend engineer with 4+ years of experience in software and systems engineering. Specializes in React.js and TypeScript. Open to exploring frontend engineering roles.

EXPERIENCE

Frontend Engineer — MetaOptima Technology Inc.

Vancouver, BC, Canada June 2020 - Current

- Developed new features and intuitive UIs for dermatology software using React.js, Redux, TypeScript, and Emotion
- Refactored and separated existing code to modern React components using React hooks, TypeScript, and Jest
- Maintained and added medical diagnosis report templates using Node.js for an in-house PDF rendering microservice
- Modified and added backend APIs to retrieve data using Django and Python

Software Engineer, Frontend — iData Research Inc.

Burnaby, BC, Canada Sep 2019 - June 2020

- Replaced and designed in-house analytics software using React.js, TypeScript, and Styled components
- Developed and maintained a market report subscription application using React.js, Redux, JavaScript, and Sass
- Worked closely with the marketing team, developed a medical blog and a landing page using WordPress and JavaScript

Software Engineer, Frontend — Tribeck Inc.

Tokyo, Japan Sep 2017 - Sep 2018

- Developed entire front end, service architecture, and a backend API server for an advertisement marketplace and a document creation web service using Vue.js, Python, and Django
- Constructed a cloud infrastructure environment using Google Cloud Platform and Docker

Systems Engineer — Mizuho Research & Technologies

Tokyo, Japan Apr 2016 - Aug 2017

- Ran complex system integration tests for Mizuho's banking fixed deposit system
- Managed progress and operated the banking network system
